

Restricted Axle Weights

5 ton road..... Steering = 10,000 pounds Each tandem = 18,889 pounds

7 ton road..... Steering* = 14,000 pounds Each tandem= 26,444 pounds

9 ton road..... Steering* = 18,000 pounds Each tandem = 34,000 pounds

Axle weights allowed up to the maximum gross weight of 80,000 pounds

***Important:** Tire size and ratings may not allow the maximum axle weight; especially if there are single tires on each wheel. In those cases, the tire size and rating would determine the axle weight.
